

**NEW**

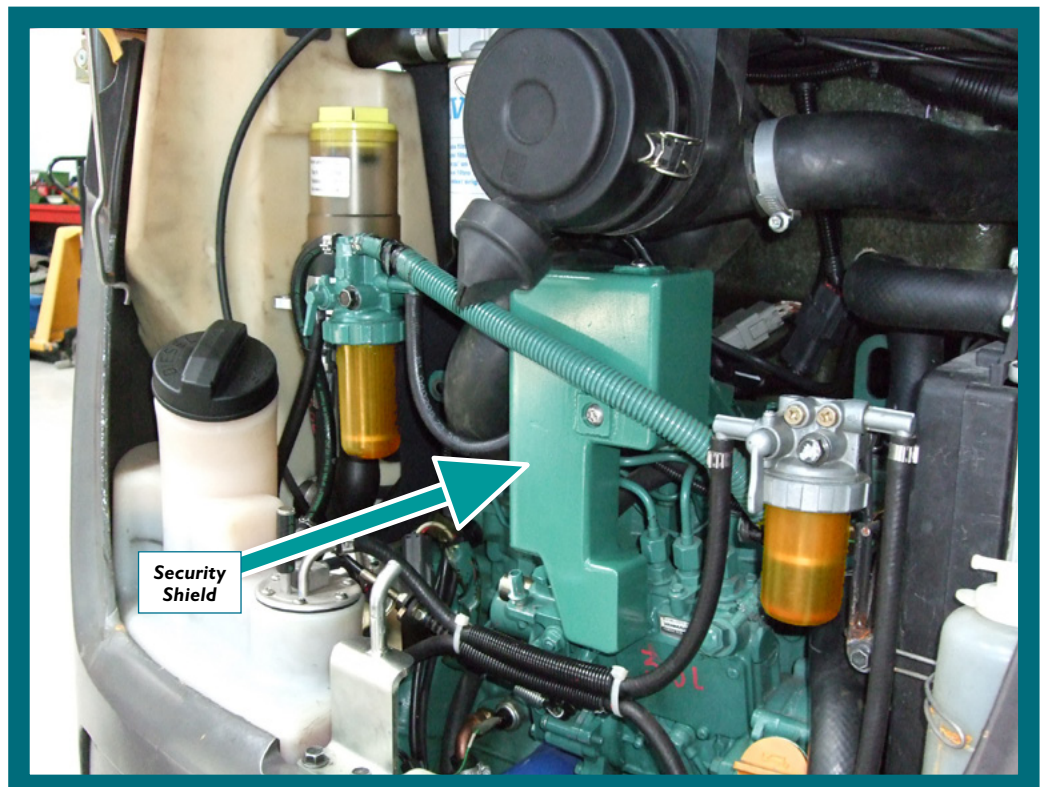

## THE KOSRAN ECV® COMMS KEYPAD ELECTROMECHANICAL IMMOBILISATION TRACKING SYSTEM

**Unsecured  
Yanmar  
Engine  
Before Install**

ECV is fixed here at fuel pump engine inlet protected by a security shield. The supply of fuel to the engine is controlled by the ECV which is managed from the Comms Keypad.

**Secured  
Kosran ECV**

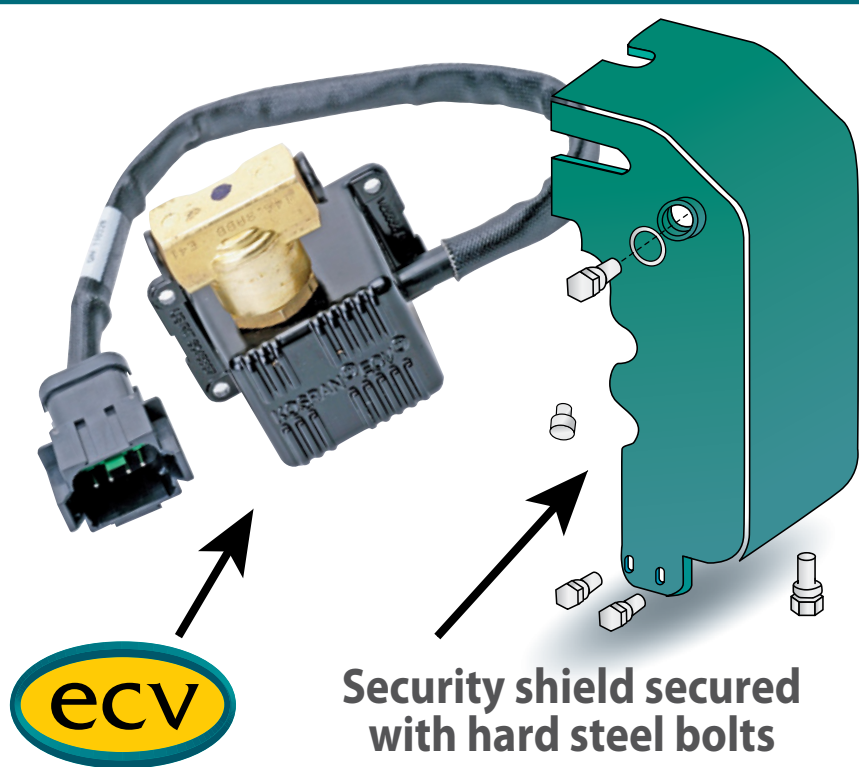

The ECV® immobilises the fuel supply, hydraulics & electrics. It is impossible for thieves to hot-wire and electrically bypass the Kosran ECV®
